Subject: Freedom of Information Act Request regarding King Road Landfill, Sylvania Township, Lucas County, Ohio

Dear Freedom of Information Officer and Mr. Gage:

Lucas County is seeking cost recover against a number of potentially responsible parties at the King Road Landfill site. The County also seeks records which will identify anyone else who may have dumped at this site. The County also requests any records on the specific companies it has identified as dumping at the site that US EPA Region 5 may have.

Lucas County submits this request under the Freedom of Information Act. As a local government, we are hopeful, that there will be no fees. However, in the event that there are fees, Lucas County commits to paying between \$25 and \$500 for its request.

In order to better prepare the request, the County spoke with Fred Gage in the Superfund section to better understand the records and computer records/data bases and how to tailor the request. Mr. Gage was extremely helpful and we thank him. He indicated the following information on the site was needed:

Site Name: King Road Landfill

Address: Note: the zip code for this address serves two different communities and thus we ask that you search under both:
